#### 7.3 Order Expedite Charge

Customers may request a change in the requested Service due date for pending Service Orders. When the Company accepts a request to expedite an order, the Company does not promise to deliver on the desired due date in advance of the normal service order interval. The Company will use its best effort to meet the desired due date. A one-time charge applies when the Customer requests a Service due date sooner than the standard interval due date, and Service is provided sooner than the standard interval due date. An Order Expedite Charge applies when a change of requested Service due date is the only Customer requested change to the original or supplemental Service Order. The Order Expedite Charge will be applied to each Private Line Circuit, each Frame Relay UNI/NNI Port, each PRI ISDN Port, and each DVA 6-Pack/DVA 12-Pack Circuit where an expedited due date is requested. Any expedite charges incurred for the provisioning of local access are not included in this Order Expedite Charge and will be passed through to the Customer. If the Customer requests a change to the Service Order in addition to the requested Service due date, the Service Order Change Charge applies pursuant to Section 2.16.2 (B) of this Tariff in addition to the Order Expedite Charge. For SBC PremierSERV<sup>SM</sup> Frame Relay and SBC PremierSERV<sup>SM</sup> ATM order expedites, if the Company cannot meet the requested due date the Customer will still be required to pay the NRC associated with the due date interval that is actually met. The Order Expedite Charge is as follows:

	Non-Recurring
Private Line Rate Per Circuit	\$500
Frame Relay Rate per UNI/NNI Port	See chart in Section 7.5 of this Tariff
DVA 6-Pack/DVA 12-Pack per Port	\$500
PRI ISDN Rate per Port	\$500

For the order expedite charge for National Frame Relay Service, see chart in Section 7.5 of this Tariff.

### 7.4 Telecommunications Service Priority System

The provisioning and restoration of Services will be in accordance with the priority system specified in Part 64, Appendix A of the rules and regulations of the Federal Communications Commission.

The TSP System is a service that provides for the priority provisioning and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The TSP system applies only to NSEP services that can be discreetly identified and provides the Company with a guide to the sequence in which services are to be provisioned and/or restored.

The Executive Office of the President is empowered with the authority to receive, evaluate, and process requests for NSEP TSP services. The Executive Office of the President, through the Office of Priority Telecommunications (OPT) as its administrative branch, makes the priority level assignments and issues the TSP authorization code reflecting the priority assignments associated with the Customer's request. The Customer initiates the request for TSP service from the OPT. The Customer then provides the TSP authorization code, in addition to all other details necessary to complete the order, and submits it to the Company for appropriate action.

### SECTION 7 - MISCELLANEOUS CHARGES AND INFORMATION

### 7.6 SBC PremierSERV<sup>SM</sup> Frame Relay Service Order Cancellation Charge

If Customer cancels an order for Service more than three (3) business days after due date has been communicated and before Service is available for use, a Service Order Cancellation Charge ("Cancellation Charge") applies. The Cancellation Charge is listed in the Chart in Section 7.5 of this Tariff. This Cancellation Charge will apply per Service Order. For Service Orders cancelled three (3) or fewer business days before the Service due date, the request will be treated as a disconnect, and will include applicable termination charges.

Issued: August 29, 2005 Effective: October 1, 2005

7.7 SBC PremierSERV<sup>SM</sup> Frame Relay Service Order Change Charge (SOCC)

#### 7.7.1 General

The SOCC may apply to Service that has been ordered but not installed and accepted by Customer and to Service that has been ordered and installed and accepted by Customer. Customer will be notified whether the SOCC will apply. The SOCC is listed in the chart in Section 7.5 of this Tariff.

#### **SECTION 9 - CONTRACT SERVICES**

### 9.1 Special Service Arrangements

#### 9.1.1 General

Data Service(s) will be made available to Customers in a non-discriminatory manner. Rates for interexchange and local exchange dedicated access, private line, non-switched services may be determined on an ICB basis. ICB rates will be structured to recover the company's cost of providing the Service and will be made available to the Commission staff upon request on a proprietary basis. ICB rates will not be used for Switched Services.

Customer-specific service arrangements, which may include engineering, installation, construction, facilities, assembly, and/or other special services, may be furnished in addition to existing Tariff offerings. Rates, terms, and conditions plus any additional regulations, if applicable, for the special service arrangements will be developed upon Customer's request. Such terms and conditions and rates and charges will be available under contract to similarly situated Customers for a period of ninety (90) days following the effective date of the SSA of the initial Customer for whom the SSA was designed, unless otherwise specifically provided for in the SSA. Similarly situated Customers enrolling in a SSA must agree to service installation no more than ninety (90) days after contracting to receive services under a SSA. Unless otherwise specified, the regulations for the special service arrangements are in addition to the applicable regulations specified in other sections of this Tariff.
